

Monitor Speaker 200 & 100

Experience Movies, Music & Gaming Like Never Before

Monitor speakers seduce you with high-end home theater sound.

Great audio enriches your entertainment experience. It adds life to films, excitement to music, and realism to gaming. Monster® THX™ Select™ Certified Monitor Speakers feature advanced technologies that let you hear your favorite movies, songs, and surround sound video games, along with incredible new technologies like SACD and DVD-Audio, in a whole new way. Working within Monster's innovative line of high-performance THX Select Certified home theater speakers, Monster Monitors operate as left and right, front and rear mid-range channels to deliver intense, 5.1 surround sound audio while complementing your existing décor.

Certification ensures a mind-blowing entertainment experience.

Monster Monitors masterfully reproduce mid-range and high frequencies including demanding movie sound effects, dialogue, and music vocals, or the full range of frequencies when combined with Monster Bass Modules and Subwoofers. Monster spent countless hours of critical listening to ensure designs met stringent Monster standards for audio quality and could surpass requirements for THX Select certification. Kevlar® cone drivers and silk dome tweeters deliver incredibly realistic sound with a wider soundstage, detailed highs and pinpoint imaging. From the softest whisper to the crescendo of a climatic scene, you'll hear every nuance the way the director intended.

Inviting design brings friends and family together.

Say goodbye to the aesthetically-offensive black box. Monster Monitors look as stunning as they sound. Streamlined, stackable designs feature curved lines, black accents and a high-gloss deep cherry or piano black finish to complement your décor, while optional, heavy-duty speaker stands provide configuration versatility for optimal tweeter height. Designed to coordinate beautifully with Monster THX Select Certified Towers, Bass Modules, Dipoles and Subwoofers, as well as M•Design™ Cinerama™ Component Centers, they create a stylish, integrated home theater ensemble your family will love.

Powerful performance. Timeless style. Monster THX Select Certified Speakers.

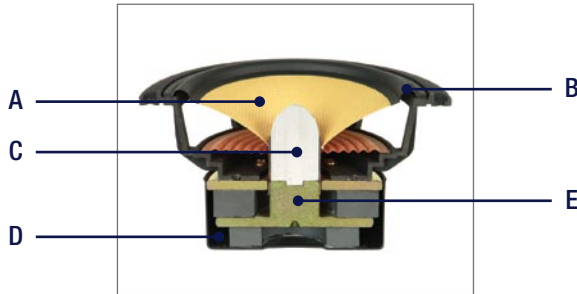

(stands sold separately)

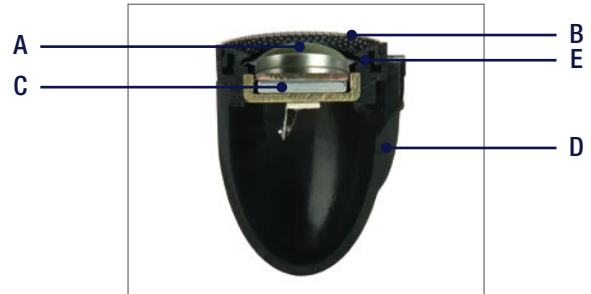

*7" Kevlar® mid-bass drivers
deliver incredibly realistic sound
with a wider soundstage
and deeper bass extension.
(speaker shown with grilles removed)*

Monster THX Select Certified 7" Kevlar® Driver
