

## Tower Bass Module 200

### Get Deep, Powerful Bass Without Sacrificing Style

#### *Bass Modules bring your home theater to life.*

Bass adds excitement to home theater sound. Whether it's the roar of rocket engines or the rumble of a kettle drum, you need deep, powerful bass to get the full impact of today's demanding movie passages, musical scores and gaming effects. Working within Monster's innovative line of high-performance THX™ Select™ Certified home theater speakers, Monster® Tower Bass Modules operate as left and right, front and rear low-frequency channels to deliver intense, 5.1 surround sound audio while complementing your existing décor.

#### *Advanced technology adds depth and realism to your favorite movies, music and games.*

High-powered for fast-dynamic, transient bass, Monster Tower Bass Modules bring movies, music and surround sound gaming to life. Functional as a stand-alone bass unit or a full-range speaker when configured with Monster Monitors, they masterfully reproduce low-frequency effects with sonic accuracy. Monster spent countless hours of critical listening to ensure designs met stringent Monster standards for audio quality and could surpass requirements for THX Select certification. A 12" woofer and 200 Watt RMS amplifier deliver deep, tight bass with exciting, incredibly realistic sound.

#### *Traditional styling creates an inviting atmosphere for family and friends.*

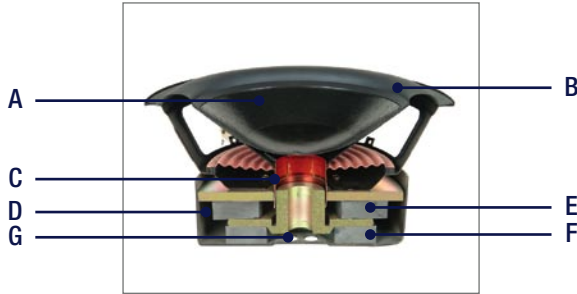

Say goodbye to the aesthetically-offensive black box. Monster Tower Bass Modules look as stunning as they sound. Streamlined, stackable designs feature curved lines, black accents and a high-gloss deep cherry or piano black finish to complement your décor. Designed to coordinate beautifully with Monster THX Select Certified Towers, Monitors, Dipoles and Subwoofers, as well as M-Design™ Cinerama™ Component Centers, they create a stylish, integrated home theater ensemble your family will love.

#### *Powerful performance. Timeless style. Monster THX Select Certified Speakers.*

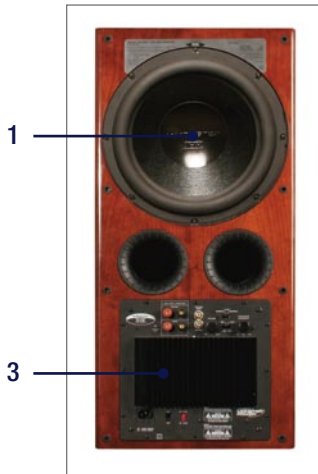

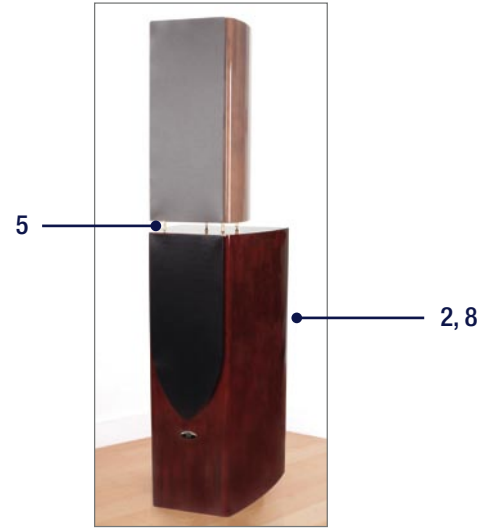

*The Tower Bass Module 200 works with Monster THX Select Certified Monitor speakers (sold separately) to deliver full-range sound.*

**Monster THX Select Certified 12" Woofer**

- A Specially treated cellulose cone
- B High damping surround
- C Long throw, low distortion motor
- D Magnetically shielded
- E Large magnet system
- F Double magnetic shielding
- G Air cooling and heat dissipation holes

**Features:**

- 1 Ultra-responsive 12" woofer for incredibly realistic reproduction of low-frequency sound effects
- 2 Curvilinear enclosure cancels standing waves for clear imaging and a deeper, more precise soundstage
- 3 200 Watt RMS amplifier for tight, powerful bass
- 4 Magnetically-shielded for safe placement next to TV and other components
- 5 24k gold contact spikes to drive a monitor and a bass module with a single set of cables

- 6 THX selection switch (THX, THX2, THX4) bypasses the gain and crossover controls when using multiple low-frequency speakers to maintain proper signal level to all channels
- 7 Coordinates with accompanying Monster THX Select Certified speakers and M•Design Cinerama consoles and towers for an integrated home theater system
- 8 Available in high-gloss deep cherry or piano black finish
